

Product Information:

Universal Glue Aqua Extra 302

Water-based adhesive for cardboard, wood, leather and lacquered surface etc.

General description and applications:

Universal Glue Aqua Extra 302 is a versatile water-based glue, which gives a slightly flexible translucent joint with excellent strength.

It is suitable for bonding most porous and non-porous materials, such as stone, glass, metal foils, ceramics, most plastic types and lacquered surfaces, polystyrene foam, wood, leather, rough textiles, paper and cardboard.

The glue setting fast and the open time is relatively short. Therefore, it is better to be used for small areas.

Physical / chemical properties:

Adhesive:

- Type: Copolymers based
- Colour: White
- Consistency: Liquid
- Shelf life: Minimum 2 years in tightly closed packing, if stored cool. Should be protected from freezing.
- Packaging:

Item no.	Size
302406	6 x 40 ml tube

Joint:

Colour: Translucent

Directions for use:

- Preparation:* The surfaces must be clean, dry, free from dust, oil and loose particles.
- Application temperature:* From 10 °C to 35 °C
- Application:* The glue is applied in a thin layer. The surfaces are pressed together while the adhesive is still wet and put under pressure.
- Pressing time:* Approx. 15 minutes at 20 °C. The pressing time depends on the porosity of the materials.
- Cleaning:* Wet glue can be removed with water.
Dried glue can be removed by soaking in water or with solvents.

Health and safety:
