

**Product Information:**

# PU Cleaner 599

**Cleaning agent for PU-foam with handy spraybutton**

**General description & applications:**

*PU Cleaner 599 is a fast and efficient cleaning agent for the removal of fresh PU-foam.*

*PU Cleaner 599 is used as an ordinary spraycan for cleaning of tools etc., or for the in- and outside cleaning of NBS-foam pistols.*

**Physical / chemical properties:****Cleaner:**

Type:

Solvent

Shelf life:

1 year in unopened packing, if stored cool. Stored upright.

Packaging:

Item no.	Colour	Size
9040	Clear	500 ml cans

## **Directions for use:**

*Cleaning of tools etc.:*

*Use the sprayhead placed on the valve at the top of the spray can.*

*Cleaning of PU-pistols:*

*For inside cleaning place the can on the adaptor of the NBS-foam pistol. The trikker is activated until the cleaning agent comes out of the pistol nozzle. The NBS-pistol is left for approximately 2 min. with the NBS-cleaning can on. Afterwards the pistol is emptied.*

*This procedure is repeated 2-3 times until the pistol is completely clean.*

*When cleaning is performed, spray always down in a bin or a disposal bag, make sure that the cleaning is done outside.*

*Cured PU-foam can not be removed with PU-Cleaner, but either mechanically or by PU Remover 912.*

*Storage:*

*PU Cleaner 599 should be stored and used with the valve in an upright position.*

*Beware!*

*PU Cleaner can dissolve or discolour surfaces (ex. lacquer, synthetic material or textiles). Test always on a less visible place before use.*

## **Health and Safety:**

*For further information on safety, refer to product safety data sheet.*

*The information and data contained in this Product Information sheet are based on extensive laboratory testing and our practical experiences and are meant for helping the user to find optimum working methods.
