

Product Information:

Pro Wipes 916

Professional wet wipe with extra cleaning power**General description and application:**

Pro Wipes 916 is a professional wet wipe with extra cleaning power designed to remove non-cured sealant, non-cured adhesive, non-cured PU foam, oil, dirt and grease from all types of surface. Pro Wipes 916 is used on e.g. metals, painted surfaces, glass etc.

Pro Wipes 916 is supplied in a special packaging, to prevent the wet wipes from drying out.

Always test the effect of the wipe on a non-visible part of the surface before use.

Member of **F&O** Danish Association of Sealant Applicators & Manufactures.

**Physical / Chemical Properties:**

Type: Wet Wipe
 Shelf Life: Minimum 2 years in unopened packaging if stored cool and dry.
 Packaging:

Art. no.	Size
30078	80 pcs box

Directions for use:**Preparation:**

Pro Wipes 916 can be used to remove all types of non-cured sealant e.g. silicones, polyurethane, MS polymers, butylene, non-cured PU-foam, oil, dirt and grease from sensitive surfaces. For very sensitive and/or delicate surfaces, please refer to Wipes Sensitive 915. If a coarser wet wipe is required, please refer to Pro Wipes Extra 917.

If the product is used for degreasing, it is important that the wipes is changed before it is saturated with the specimen one wants to remove.

Pro Wipes 916 may damage gaskets, lacquered or painted surfaces, protective coverings and rubber materials. Always carry out a test on a non-visible part of the material before use.

After Use:

Immediately after degreasing with Pro Wipes 916 the surfaces should be dried of with a clean dry cloth, to get the best result.

Health and safety:

For further information on safety, refer to product safety data sheet.
