

**Product Information:**

# Pro Wipes Extra 917

**Coarse Wet Wipe with Extra Cleaning Power****General description and application:**

*Pro Wipes Extra 917 is a professional and extra strong wet wipe with extra cleaning power designed for the professional user. The wet wipe has two different sides, a soft one to soften and gently remove dirt and a rough side especially suitable for more persistent dirt.*

*Pro Wipes 917 is supplied in a special packaging, to prevent the product from drying out.*

*The wet wipe can remove non-cured sealant, non-cured adhesive, non-cured PU foam as well as oil, dirt and grease from all types of surfaces.*

*Always test the effect of the wipe on a non-visible part of the surface before use.*

Member of  Danish Association of Sealant Applicators & Manufacturers.

**Physical / Chemical properties:**

Type:

Wet Wipe

Shelf Life:

Minimum 2 years in unopened packaging if stored cool and dry.

Packaging:

Art. no.	Size
30079	80 pcs.

**Directions for use:**

Preparation:

*Pro Wipes Extra 917 can be used to remove all types of non-cured sealant e.g. silicones, polyurethane, MS polymers, butylene, polysulfide, non-cured PU-foam, oil, dirt and grease from sensitive surfaces. For very sensitive and/or delicate surfaces, please see Wipes Sensitive 915*

*If the product is used for degreasing, it is important that the wipes is changed before it is saturated with the specimen one want to remove.*

*Pro Wipes Extra 917 may damage gaskets, lacquered or painted surfaces, protective coverings and rubber materials. Always carry out a test on a non-visible part of the material before use.*

After use:

*Immediately after degreasing with the wet wipe the surfaces should be dried of with a clean dry cloth, to get the best result.*

**Health and safety:**

*For further information on safety, refer to product safety data sheet.*
