

**Product Information:**

# Aqua Universal Adhesive 301

**Water based adhesive for paper, cardboard, wood etc****General description and applications:**

*Aqua Universal Adhesive 301 is a versatile water-based adhesive, which gives a slightly flexible translucent joint with high strength.*

*Suitable for bonding most porous and non-porous\* materials, such as stone, glass, metals, ceramics, most plastic types and lacquered surfaces, polystyrene foam, wood, leather, rough textiles, paper and cardboard.*

*\* The adhesive cures when drying, and should therefore only be used for small areas, if both surfaces are non-porous.*

*The glue fulfils the requirements of the Association for Art- and Hobby materials, and is placed in group A.*

**Physical / chemical properties:****Adhesive:**

Type: Modified polyvinylacetate  
 Colour: White, slightly yellow  
 Consistency: Liquid  
 Shelf life: Minimum 2 years in tightly closed packing, if stored cool.  
 Should be protected from freezing.

**Packaging:**

Item no.	Size
301100	12 x 100 ml bottle
30111	6 x 1 liter bottle

**Joint:**

Colour: Translucent

**Directions for use:**

- Preparation:* The surfaces must be clean, dry, free from dust, oil and loose particles.
- Application temperature:* From 10 °C to 30 °C
- Application:* The adhesive is applied in a thin layer. The surfaces are pressed together while the adhesive is still wet and put under pressure.
- Pressing time:* Approx. 30 minutes at 20 °C. The pressing time depends on the porosity of the materials.
- Cleaning:* Uncured adhesive can be removed with water.  
Cured adhesive can be removed by soaking in water or with solvents.

**Health and safety:**

For further information on safety, please refer to product safety data sheet.
